

LUNGI MBHETSE MALUNGANA

JUNIOR SOFTWARE ENGINEER | FULL-STACK & REACT DEVELOPER

Lynnwood, Pretoria | 063 742 4934 | malunganalungi05@gmail.com | mbhetech.co.za

PROFESSIONAL PROFILE

Software Engineering student and founder-developer with hands-on experience delivering responsive websites, full-stack applications and business systems for South African organisations. Strong in React, JavaScript/TypeScript, Node.js, Supabase and relational databases, with practical experience translating client requirements into secure, deployed solutions. Currently completing a BSc in Information Technology (Software Engineering) at Eduvos Pretoria and seeking junior software engineer, graduate developer, web developer or front-end developer opportunities.

PROFESSIONAL EXPERIENCE

Founder & Software Developer | MbheTech Solutions, Pretoria 2025–Present

- Consult with clients to gather requirements, define project scope and translate business needs into practical websites and software systems.
- Design and develop responsive front-end interfaces with React, Vite, TypeScript and Tailwind CSS, supported by Node.js/Express and Supabase-based back ends.
- Build database-backed features including authentication, role-based access, file storage, administrative dashboards, payment workflows and online forms.
- Apply secure development practices such as input validation, protected routes, permission-based access and Supabase Row Level Security.
- Deploy and maintain production applications using Netlify, Vercel, Render and Afrihost; diagnose build, environment, DNS and integration issues.
- Manage projects from discovery and UI design through implementation, testing, deployment, client handover and ongoing support.

SELECTED SOFTWARE PROJECTS

MNB Chartered Accountants – Accounting Practice Management System | *React, TypeScript, Express, Supabase/PostgreSQL*

Built an employee-focused platform for CRM, audit and tax workflows, HR, projects, timesheets, documents, quotations and invoicing, supported by role-based access controls.

Lee Pharmacy – Full-Stack E-commerce Platform | *React, Vite, Tailwind CSS, Supabase, Stripe*

Developed product browsing, cart and checkout flows, customer accounts, order management and administrative product controls.

AFM Fountain of Life – Role-Based Church Platform | *React, Supabase Auth/RLS, serverless email*

Created authentication, protected content, announcements, events and role-specific workflows for members, pastors and administrators.

Shiluva Landscaping – Plant Catalogue | *React, TypeScript, Tailwind CSS*

Built a searchable, responsive catalogue containing more than 500 structured plant records, images, enquiries and deployment validation.

Pure H2O – E-commerce Website | *React, PayFast*

Developed a product catalogue, customer login, cart, administrative product management and payment integration.

Everyday Recovery Centre – Nonprofit Website | *React, Web3Forms, Netlify/Afrihost*

Delivered responsive service, gallery, contact and donation pages with online form integration.

TECHNICAL SKILLS

Languages	JavaScript, TypeScript, Python, Java, SQL, HTML5, CSS3
Front end	React, Vite, Tailwind CSS, responsive UI development
Back end & data	Node.js, Express.js, Supabase, PostgreSQL, MongoDB, Firebase, REST APIs
Security & integrations	Authentication, RBAC, Row Level Security, Stripe, PayFast, Web3Forms
Tools & deployment	Git, GitHub, Postman, VS Code, Cursor, Netlify, Vercel, Render, Afrihost

EDUCATION

Bachelor of Science in Information Technology: Software Engineering (NQF 7) |**Eduvos, Pretoria Campus**

2025–2027*

Current average: 79.4% | Key results: Programming in Python 92%; Software Process, Architecture Design & QA 87%; Software & Security Engineering 84%; Database Systems 74%

**Expected completion in 2027*

Higher Certificate in Software Development Life Cycles | Completed

Covered requirements analysis, system design, Agile and Waterfall methods, testing and quality assurance, deployment, maintenance, version control and collaborative development.

CORE STRENGTHS & ADDITIONAL INFORMATION

Problem solving • Software design • Client communication • Requirements analysis • Database design • Testing and QA • Project ownership • Continuous learning

Citizenship: South African **Languages:** English and Xitsonga **References:** Available on request
